**Executive
Director**

”

We always strive to bring in the latest technology and more demanding quality trading products from our selective local and international reputed suppliers catering our private, government and corporate clients. This is to ensure the quality, best performance, and gain trust confidence from our respective clients.

We believe in this competitive service and trading sector, quick action and response is needed. Our skilled, well-trained workforces of over 250 staffs are ever ready to accept challenging projects.

Besides providing quality products and services, we provide consultation on the methodology of each specific project to be carried out in a cost effective manner.

Finally, we would like to take this opportunity to thank all our clients and partners for working hand in hand with your continuous support in ensuring the growth of SBMS Group of companies.

Let's go Green.

Introduction

About our company

We are passionate about bringing the best green technologies.

Setia Bintang Engineering Sdn Bhd is a well-established construction and infrastructure maintenance company and a subsidiary of SBMS Group of Companies. The company's nature of business involves civil engineering, structural maintenance, slope maintenance, road construction & maintenance, building & bridge construction work and import & export of green road products.

Setia Bintang Engineering Sdn Bhd is also the appointed exclusive distributor for MacRebur – The Plastic Road Company in Malaysia and extended territories into Thailand & Indonesia. Over the years, the company has good reputation of handling various scales of maintenance & construction projects in Malaysia.

In addition, the company is also the exclusive distributor for TileGreen, a highly durable and high-performance paving solution crafted from recycled plastics. As the leader in the sustainable civil engineering sector, we cater to a diverse range of applications with products that meet the highest standards of performance and sustainability

Contributing to the society by supplying **green solution** since 2005

The collective focus

Our Goals & Objectives

We believe that transformation – in our work and in ourselves – is truly possible. We're defined by our entrepreneurial spirit and our unwavering spirit of not only what's next, but also what's best.

Objective 01

We are passionate about harnessing innovation as a positive force for change.

Objective 02

We seek ways to reduce effect of our operations on the environment through modernization.

Objective 03

We believe in employing and developing the very best talent in the industry.

Our Vision

We foresee to development of the company through the continuous usage of advance green technologies and quality construction products to cater the needs of every client.

The company will always improve and diversify all the relevant skills and knowledges in order to provide a quality infrastructure life. Our vision is to be the preferred construction and maintenance partner for our clients and to be the benchmark against which our competitors are measured.

Our Mission Statement

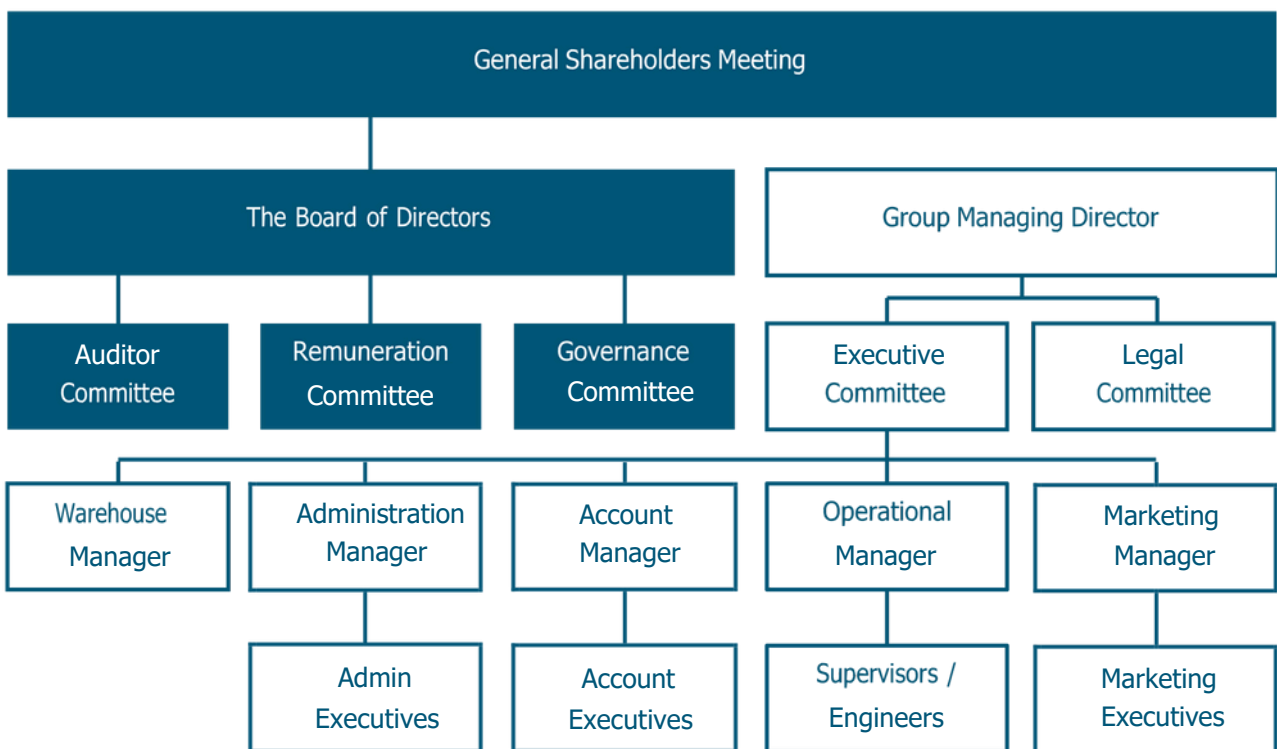

We strive to be the reputable groundbreaker in the field of civil engineering and construction, committed to maintaining and repairing infrastructure projects and construction projects across the nation.

The company is committed to offer the utmost value to all respective clients with respect to the safety of the environment.

Core Businesses

Civil Engineering Construction

Focus on understanding our clients and their customers.

Civil Engineering & Construction

Engineering Solutions

We design, manage, build and operate infrastructure and facilities that help improve daily life. You can be confident that Setia Bintang Engineering will find efficient ways to meet its clients' expectation.

Import & Export

MacRebur - Malaysia, Thailand & Indonesia

Our mission is to help solve two world problems; to help solve the waste plastic epidemic, and to enhance the asphalt used to make our road surfaces around the world.

Import & Export

TileGreen - Malaysia

By utilising environmentally-friendly building materials that are 100% recyclable, cement-free, and carbon-negative, we aim to combat plastic waste and reduce carbon emissions.

Partnership

Let's work together!

In partnership with you, we establish the steps to meet your strategic plans, using analytical front-end advice that helps you design, plan, monitor, deliver and sustain your goals.

Building and sharing knowledge

Our business development team constantly research on new green & sustainable products and technologies, enabling us to share that knowledge – contributing to better outcomes for our clients. It also encourages us to be creative, open to fresh thinking and to implement new ideas quickly, so you benefit sooner. By having the best technical team and thought leaders, to create outcomes which enhance value for you, your stakeholders and society.
